

CHOOSE AN ICR EVENT

There are numerous ways in which you can host one or more speakers from ICR:

- **CREATION SEMINAR:** One or more speakers scheduled on weekdays or weekends
- **CREATION WEEKEND:** One or more speakers scheduled from Friday through Sunday
- **CREATION CONFERENCE:** A team of ICR speakers scheduled for a one-day or multi-day themed event.

Or, work with an ICR Event Planner to customize your event with one or more ICR speakers in your city.

Dr. Randy Guliuzza

National Representative

Specialty: Human Body, Apologetics, Worldview

Dr. Randy Guliuzza is a captivating speaker who presents well-documented and often humorous scientific and biblical talks. Dr. Guliuzza has a B.S. in Engineering

from the South Dakota School of Mines and Technology, a B.A. in theology from Moody Bible Institute, an M.D. from the University of Minnesota, and a M.P.H. from Harvard University. Dr. Guliuzza served in the Navy Civil Engineer Corps and is a registered Professional Engineer. In 2008, he retired as Lt. Col. from the U.S. Air Force, where he served as Flight Surgeon and Chief of Aerospace Medicine. He is the author of *Made in His Image*.

WHO IS ICR?

For four decades, the Institute for Creation Research has equipped believers with evidence of the Bible's accuracy and authority through scientific research, educational programs, and media presentations, all conducted within a thoroughly biblical framework.

ICR SPEAKERS

*Communicating the wonders
of God's creation*

INSTITUTE
for CREATION
RESEARCH

Dr. Henry Morris III

Chief Executive Officer

Specialty: Bible, Apologetics, Worldview

Dr. Henry Morris III holds four earned degrees, including a D.Min. from Luther Rice Seminary and the Presidents and Key Executives MBA from Pepperdine University. A former college professor,

administrator, business executive, and senior pastor, Dr. Morris is an articulate and passionate speaker frequently invited to address church congregations, college assemblies, and national conferences. The eldest son of ICR's founder, Dr. Morris has served for many years in conference and writing ministry. He has authored numerous articles and books, including *The Big Three: Major Events that Changed History Forever*, *Exploring the Evidence for Creation*, and *5 Reasons to Believe in Recent Creation*.

HOSTING AN ICR SPEAKER

The Institute for Creation Research actively participates in conferences, seminars, and other events around the world, communicating the evidences of science that demonstrate the accuracy and authority of Scripture. ICR also offers creation seminars and events at local churches, Christian schools, universities, and other organizations. Many of our speakers are available to preach for Sunday services, as well.

The speakers from ICR specialize in a variety of areas related to science, Christian education, and biblical apologetics, addressing hundreds of audiences each year, from keynote addresses at national conferences to educational seminars at Christian schools and worship services at local churches. Many of these speakers are authors of books and articles related to creation science and apologetics.

Demand the Evidence. Get it @ ICR.

Dr. John D. Morris

President

Specialty: Geology, Noah's Ark/Flood, Fossil Record, Age of the Earth, Mount St. Helens

Dr. John Morris, perhaps best known for leading expeditions to Mt. Ararat in search of Noah's Ark, served on the University of Oklahoma faculty before joining the Institute for Creation Research in 1984. He received his Ph.D. in Geological Engineering at the University of Oklahoma in 1980. Dr. Morris was appointed President of ICR in 1996. He travels widely around the world speaking at churches, conferences, schools, and scientific meetings. Dr. Morris has written numerous books and articles on the scientific evidence that supports the Bible. His recent books include *The Young Earth* and *The Fossil Record: Unearthing Nature's History of Life*.

Lawrence Ford

Director of Communications

Specialty: Bible, Apologetics, Worldview

Lawrence Ford oversees the public side of ICR's ministry through the development of new publications, radio, television, and conference programs, and other facets of the ministry that connect ICR to the world. He is the Executive Editor of *Acts & Facts* magazine, the daily devotional *Days of Praise*, and other publications. After studies in mathematics at U.C. San Diego, Mr. Ford completed ministry training at Columbia International University and Dallas Theological Seminary. An ordained Baptist minister, he previously served as a missionary on three continents. As ICR's spokesman, Mr. Ford fields media requests from *The Boston Globe*, Fox News, and other media outlets.

Dr. Gary Parker

Senior Science Lecturer,
Professor of Biology

Specialty: Geology/Paleontology, Biology

Dr. Gary Parker graduated magna cum laude in biology/chemistry from Wabash College in 1962, where he was also elected to the National Scholastic Honorary Society, Phi Beta Kappa. His doctoral work, supported by a competitive 15-month fellowship grant from the National Science Foundation, was completed as he emerged as a creationist, enabling him to add paleontology as an emphasis to his Ed.D. in Biology/Geology from Ball State University in 1973. Known for his warmth and casual style, Dr. Gary Parker is a popular speaker and writer. He is the author of numerous books, including *Creation: Facts of Life and Building Blocks in Science*.

Frank J. Sherwin III

Senior Science Lecturer

Specialty: Zoology, Oceans, Noah's Flood, Microbiology, Dinosaurs

Frank Sherwin received his bachelor's degree in biology from Western State College, Gunnison, Colorado, in 1978. Mr. Sherwin attended graduate school at the University of Northern Colorado, where he studied under one of America's foremost parasitologists. In 1985, he obtained a master's degree in zoology and published his research in the *Journal of Parasitology*. From 1987 to 1996, Mr. Sherwin taught a variety of life science courses at Pensacola Christian College. He contributes his scientific expertise to a variety of ICR's publications on creation science. He is the author of *The Ocean Book* and co-author of *The Fossil Record* with Dr. John Morris.

Dr. Steve Austin

Senior Research Scientist and
Chair, Geology Department

Specialty: Geology, Mount St. Helens,
Grand Canyon

Dr. Steve Austin received his Ph.D. from Pennsylvania State University in 1979 and has conducted geologic research on six continents. He is the author of books, videos, and more than forty technical geology papers. He recently led scientists from the Geological Society of America to Mount St. Helens to study the remarkable landforms that have formed within the landscape in just the last 30 years. His current research interests include the mass-kill event and rapid burial of nautiloid fossils in Grand Canyon, mega-flood deposits in southern Argentina, and the frozen spruce tree cones in extreme northern Canada.

Dr. Larry Vardiman

Chair, Astro/Geophysics Department

Specialty: Atmospheric Studies, Climate
Change, Ice Age, Paleoclimatology

After obtaining his Ph.D., Dr. Larry Vardiman served as a consultant to the Colorado Governor's Advisory Panel on Weather Modification. Additionally, Dr. Vardiman served in the U.S. Air Force as an officer in the Aerospace Modification Division. Before coming to ICR, he taught at Christian Heritage College as a Professor of Natural Sciences, serving as Academic Vice President from 1987 to 1989. Dr. Vardiman was also director of ICR's RATE research project. His scientific research has included cloud seeding, ice crystal growth and evolution, paleoclimatology, ice sheet formation during the Ice Age, and catastrophic hurricane formation.

Dr. James J. S. Johnson

Special Counsel /
Associate Professor of Apologetics

Specialty: Education, History, Biblical
Studies

Dr. James Johnson serves ICR's legal needs and oversees Christian education and apologetics. Beyond legal topics, he specializes in U.S. and world political history, ethics, ecology, and family history, and is credentialed by ACSI. He received his J.D. from the University of North Carolina, which included studies at Duke University Law School, and later earned his Th.D. His educational background includes earned degrees in religion and the natural sciences. For his scholarship in biblical languages at Wake Forest University, Dr. Johnson was awarded the American Bible Society Award in 1982.

Dr. Nathaniel Jeanson

Research Associate

Specialty: Biology, Stem Cells

After receiving his Ph.D. in cell and developmental biology from Harvard Medical School in 2009, Dr. Nathaniel Jeanson joined ICR as a research associate. While at Harvard, he assisted in adult stem cell research, specifically on the role of Vitamin D in regulating blood stem cells. Dr. Jeanson also had the opportunity to be a stem cell panelist at the Massachusetts Citizens for Life convention and to submit testimony when the Massachusetts legislature tried to overturn laws prohibiting the use of human embryonic stem cells. Dr. Jeanson is currently working with the life science team in the development of biological research relevant to Genesis 1-11.

Dr. Charles McCombs

Associate Professor of Chemistry,
Assistant Director of NCSF

Specialty: Chemistry, Age of the Earth

Dr. Charles McCombs has been an active creation speaker since 1998, during which time he was also a teacher and administrator of a Christian school in Florida prior to joining the ICR science team in 2008. Dr. McCombs is the author of two books: *Evolution Hopes You Don't Know Chemistry and Is Creation Really Important?* He earned a B.S. degree in Chemistry from California State University Long Beach, and a Ph.D. in Organic Chemistry from UCLA. He served as the Senior Research Chemist for Eastman Chemical Company for 21 years and holds 20 patents.

Brian Thomas

Science Writer

Specialty: Biology, Problems in Evolution,
Origin of Life, Dinosaurs

Brian Thomas received a B.S. in biology from Stephen F. Austin State University, Nacogdoches, Texas, in 1993. After beginning graduate studies in science education at ICR Graduate School, he returned to Stephen F. Austin State, where he earned an M.S. in biotechnology in 1999. From 2000 to 2005, he taught 9th and 12th grade biology at Ovilla Christian School in Ovilla, Texas, as well as general biology and general chemistry as an adjunct professor at Navarro College, Waxahachie, Texas. He taught biology, chemistry, and anatomy as an assistant professor at Dallas Baptist University from 2005 until 2008 before joining the staff at ICR.

Dr. Patricia Nason

Professor and Chair, Science Education

Specialty: Education, Science Classroom
Curriculum

Dr. Patricia Nason is Professor and Chair of the Department of Science Education for the Institute for Creation Research Graduate School. She is a graduate of Sam Houston State University (B.A., Education) and Texas A&M University (M.Ed. and Ph.D.). Dr. Nason's teaching experience includes lecturer and researcher in the Department of Curriculum and Instruction at Texas A&M University, and professor of science education at the University of North Carolina and Stephen F. Austin State University. She has taught full-time at ICR since 2004. Dr. Nason also taught middle school science and was grade-level department chairman for six years in Houston, Texas.

Lalo Gunther

Special Events Coordinator

Specialty: Youth Ministry

Before becoming a Christian in 1995, Lalo Gunther was a member of a gang in southern California. Saved through the witness of a police officer, he left his former lifestyle behind. He graduated from San Diego Christian College (co-founded by ICR founder Dr. Henry Morris) and began work in ICR's distribution warehouse in 2000, eventually managing ICR's warehouse operations. Mr. Gunther is a former youth pastor and has a passion for conveying the truth of the gospel to young people. He currently serves as ICR's Special Events Coordinator and represents ICR at numerous conferences and seminars around the country each year.
