

Created in the Image of God

Activity

Work creatively and engage in intentional discussion to better identify and understand the ways people bear God's image.

Instructions

1. Read Genesis 1:26–27 together.
2. Have each child draw a self-portrait or create a collage reflecting their identity and interests.
 - For the self-portrait, have each child write out qualities they have that reflect how they bear the image of God around the picture.
 - For the collage, have each child add pictures that represent qualities that reflect how they bear the image of God.

Discussion

1. What makes humans different from animals?
2. Since all people are made in the image of God, how should we treat the people around us?
3. As Christians, we not only bear God's image but we are also called to represent Him well and actively reflect Him to those around us (hence the name "Christian," read 2 Corinthians 5:20). How can we do this in our daily lives?
